Sign in to GitHub

Digital Technologies · School and personal computers

You will

- sign in to GitHub with your school Google account
- find your GitHub username
- check you're in `Marcellin-College-DGT`

You need

- your school Google account
- a GitHub account linked to your school email (your kaiako will help you make one)

 Click here  Look here

1

Chrome › github.com

Go to `github.com`.

Click **Sign in** at the top right.

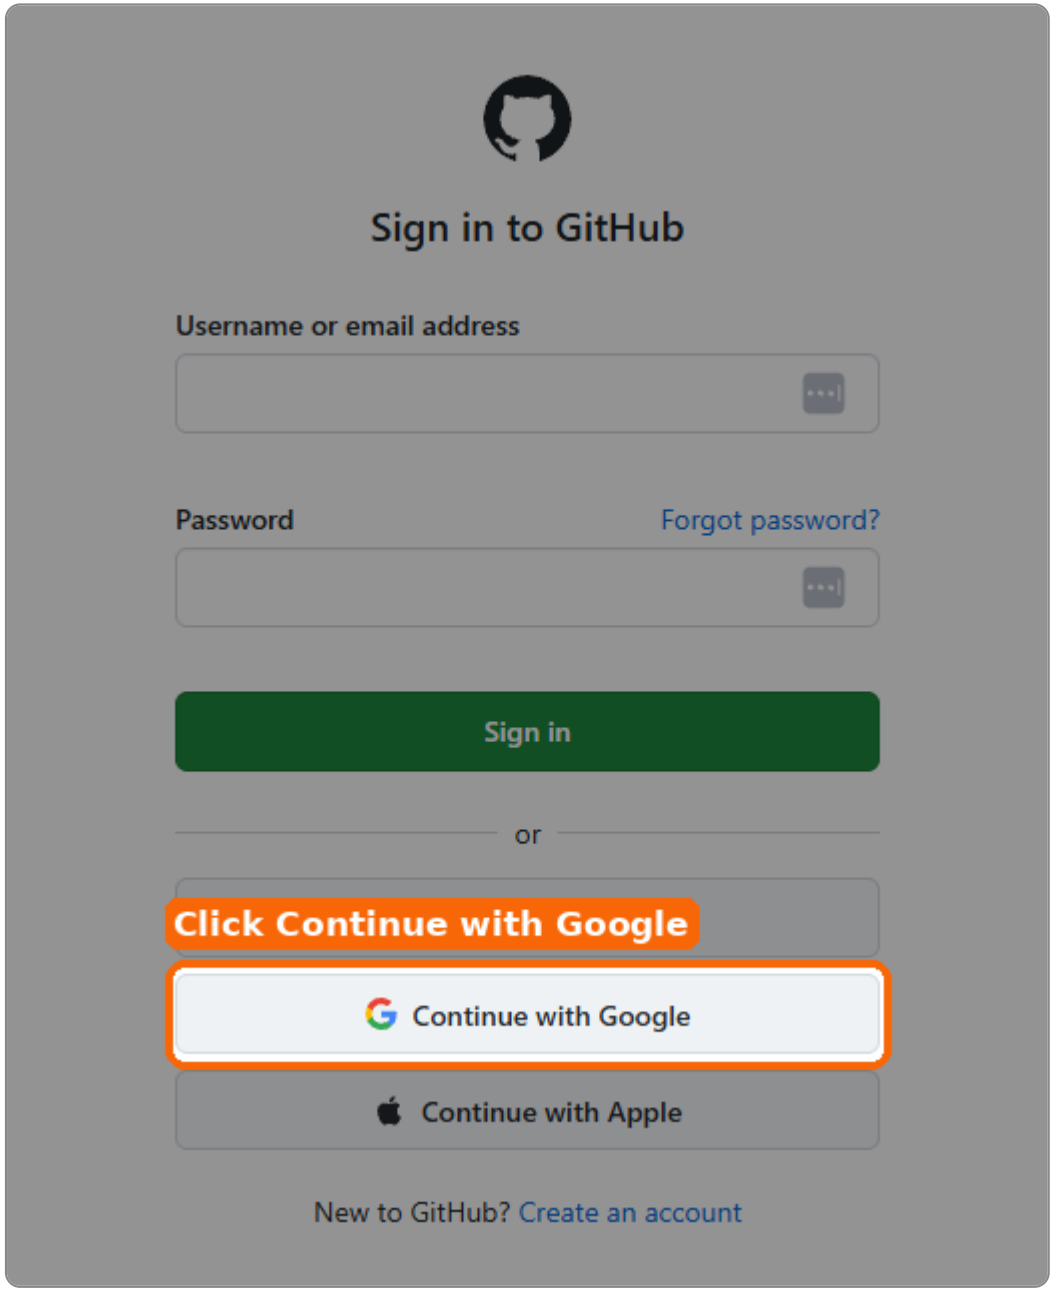

2

GitHub › Sign in to GitHub

Click **Continue with Google**.

Don't type in the username and password boxes. Your school account signs in with Google.

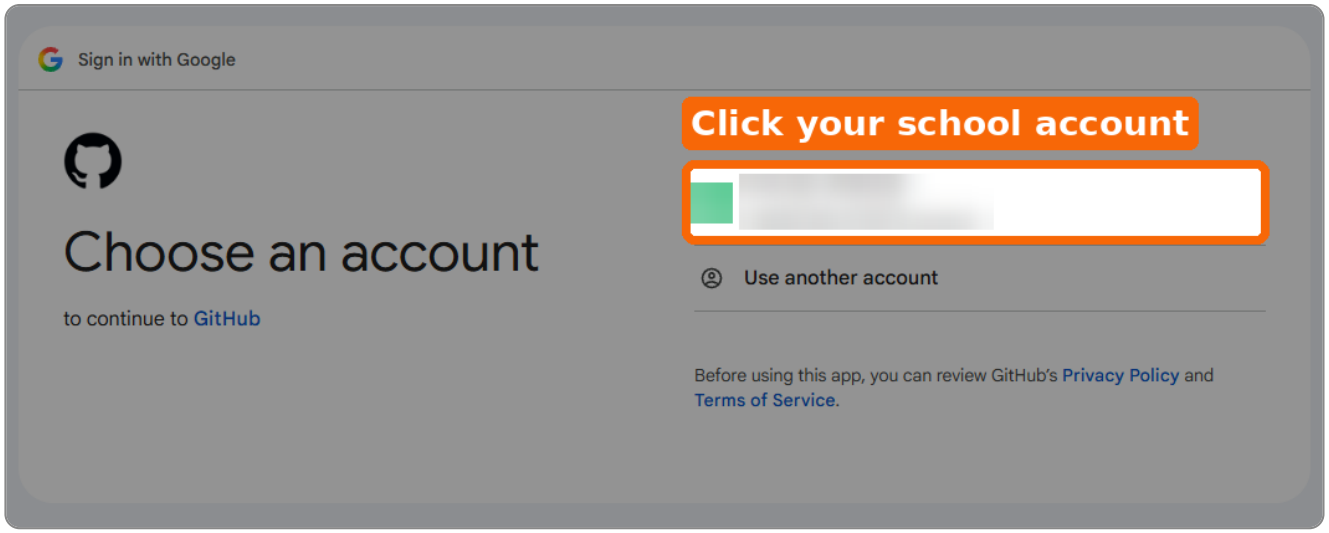

3

Google › Choose an account

Click your school account.

If something goes wrong
Your school account isn't there: click **Use another account** and sign in with your school email and password.

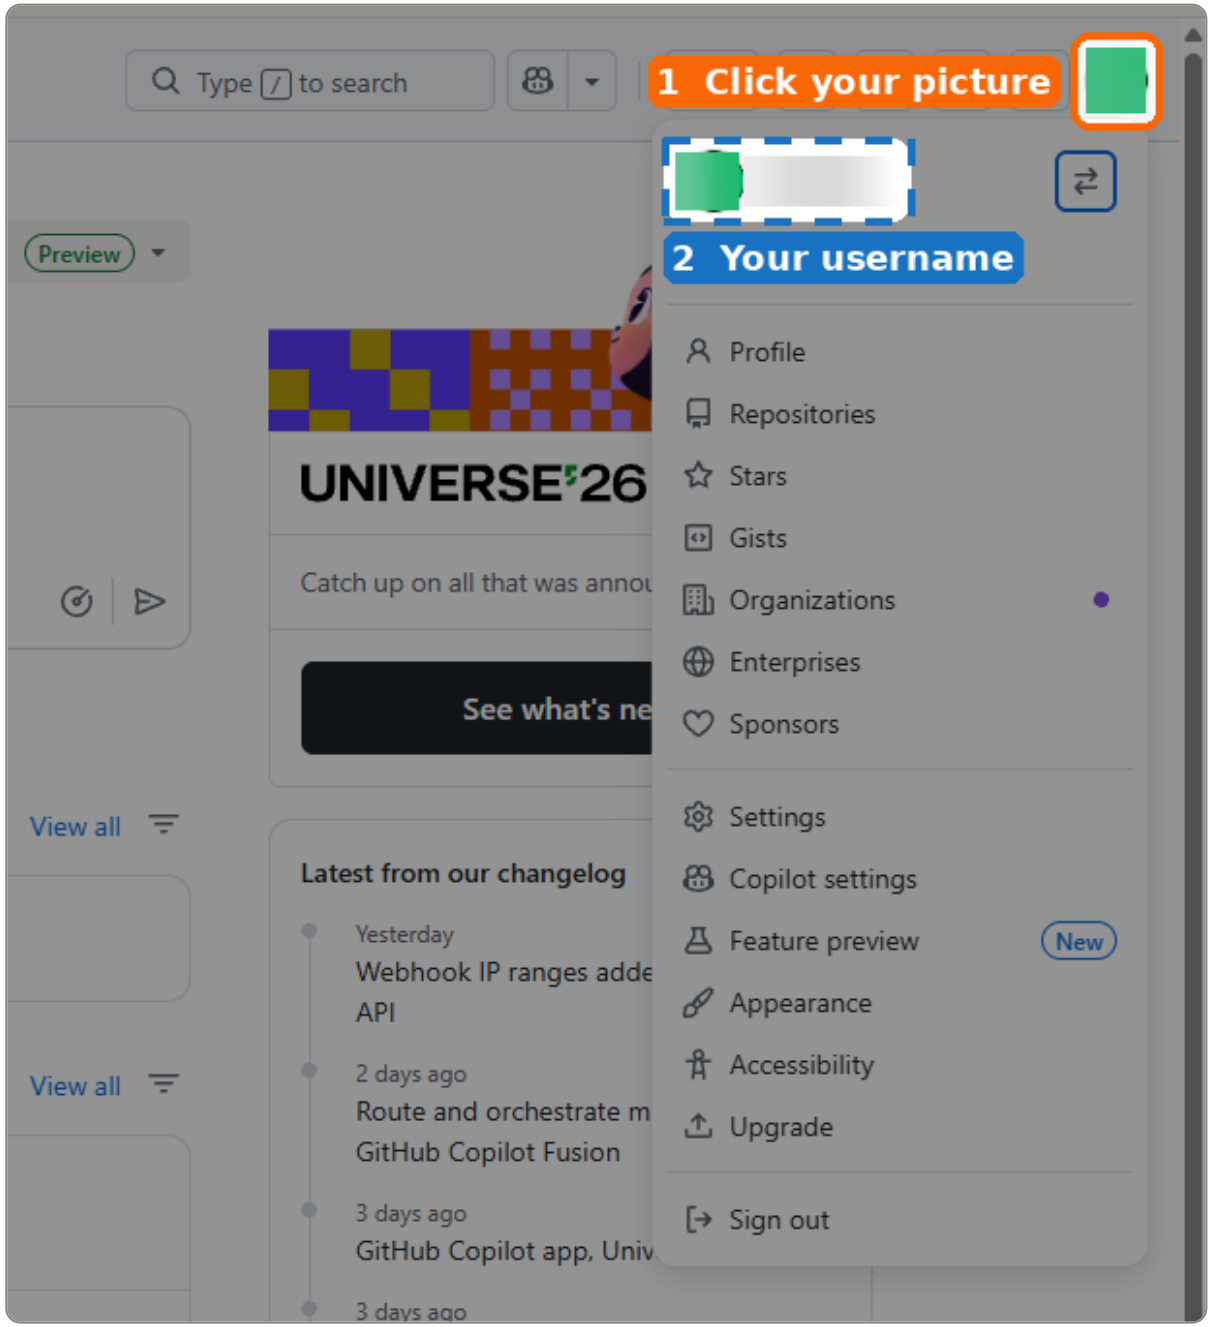

4

GitHub › Dashboard

Click your profile picture at the top right.

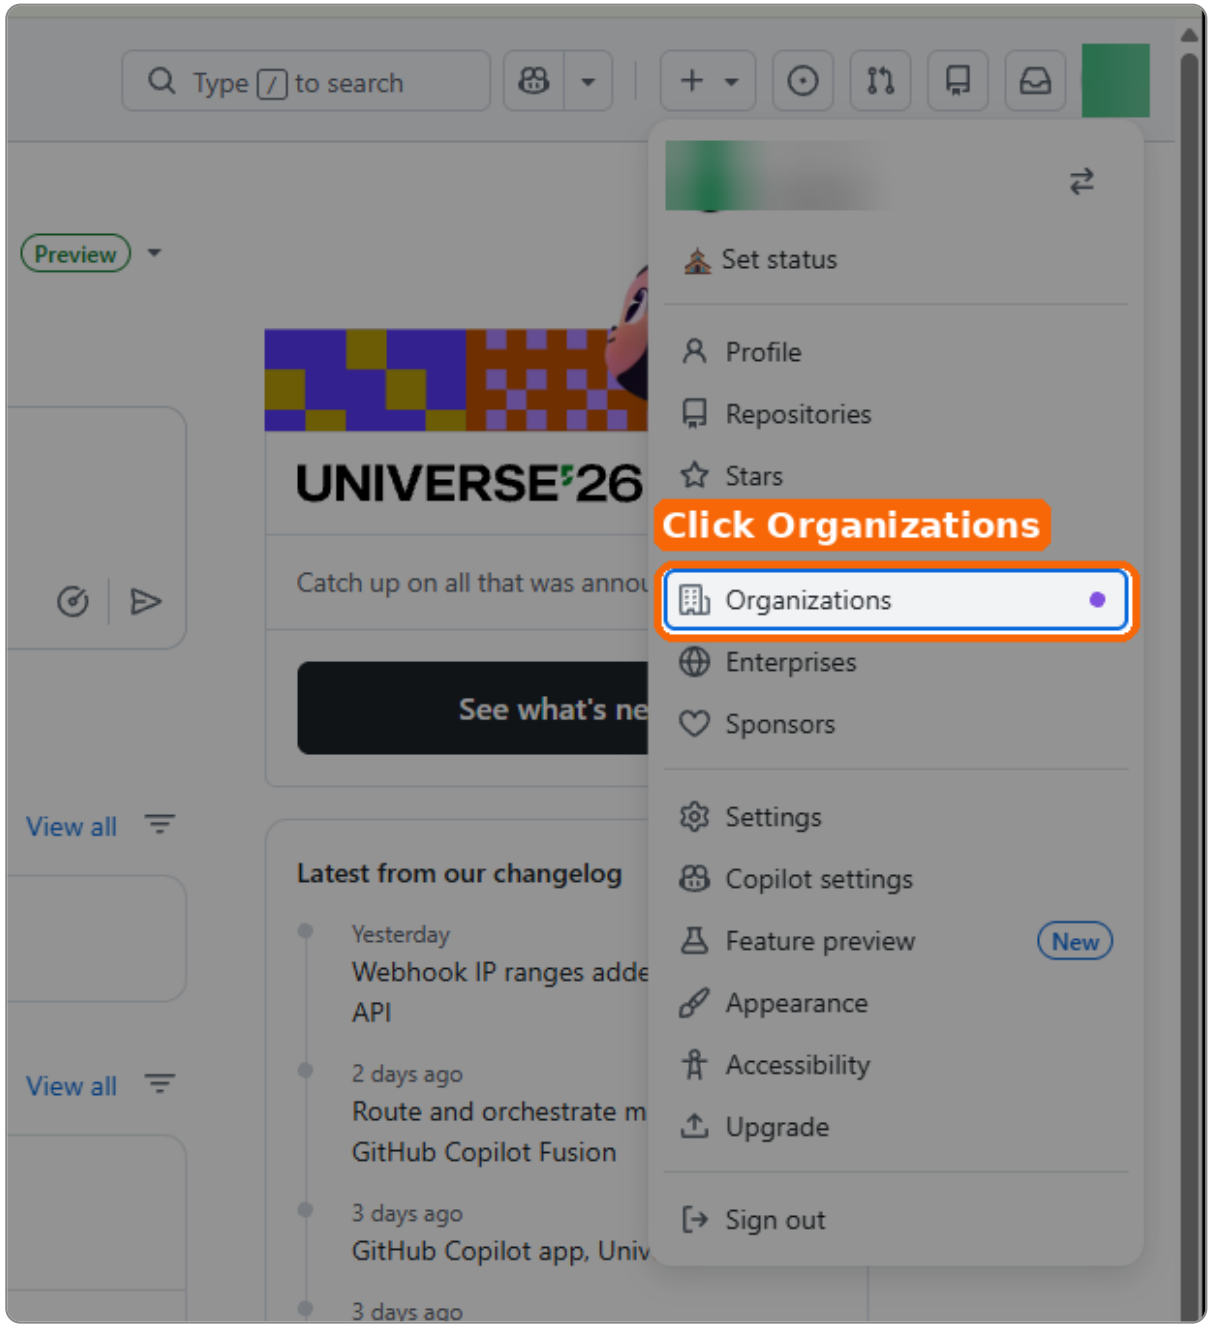

> **Check:** your username is at the top of the menu. Tell your kaiako your username if they ask.

5

GitHub › Profile menu

Click **Organizations**.

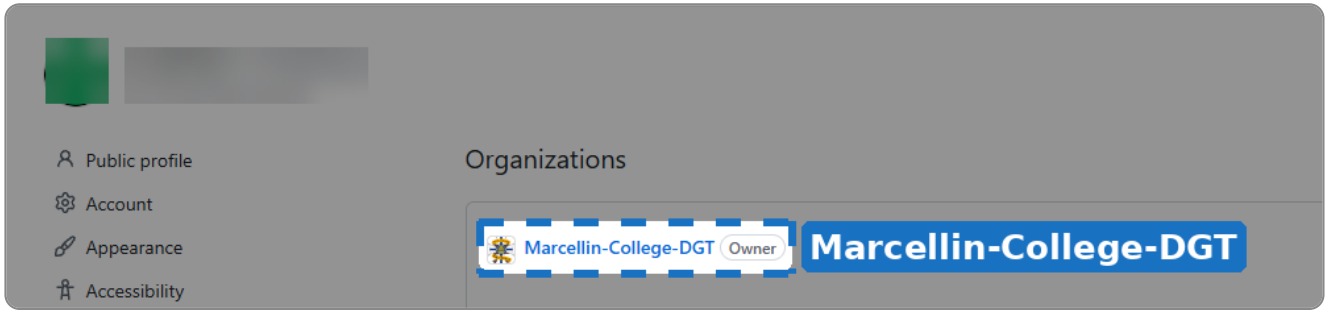

6

GitHub › Settings › Organizations

Look for `Marcellin-College-DGT`.

Yours will say Member. Your kaiako's says Owner.

> **Check:** `Marcellin-College-DGT` is in your list.

If something goes wrong
It isn't there: check your school email for an invitation from GitHub and click **Join**. No email? Ask your kaiako to invite you.

Always use your school account
Sign in with **Continue with Google** and your school account, so your work goes to the school's GitHub.

Signing out on a shared computer
Click your profile picture, then **Sign out** at the bottom of the menu.

Checkpoint

- [ ] I can sign in to GitHub with my school account.
- [ ] I know my GitHub username.
- [ ] I'm a member of `Marcellin-College-DGT`.
